WOOD'S CROP SPECIAL

Giving Timely Information and Prices of Seasonable Seeds

PUBLISHED BY T. W. WOOD & SONS SEEDSMEN RICHMOND VA.

VOL. XVII.

JULY EDITION

1922

Our "Wood's Crop Special" is issued monthly during planting seasons. There is no subscription price, but is mailed free upon request. If any of our customers do not receive Wood's Crop Special regularly, and desire to do so, advise us and we will place your name on our regular mailing list.

A Reminder

It may be unnecessary, but this is to remind you the ground in your garden is a very busy proposition—it must grow something all the time. Why not let it grow vegetables that will be of some use instead of weeds? As fast as you take up a row of vegetables in your garden plant something. Growing something in the garden all summer means not only a continuous supply of vegetables, but it means killing the weeds by cultivation to make your gardening easier next summer. Plant some of the vegetables offered below and have an all-the-summer garden, something to put into cans and something to put into the cellar for use next winter.

BEANS. Plant them every two weeks up to the last of August to have a continuous supply. What you do not use, can for next winter.
